

Dear Netherland Thai Chamber of Commerce,

My name is Anne Jan Pruim, I am a Dutch/Korean international business student at the Hanze UAS, in the Netherlands. Currently, I am in my third year, and recently completed a six-month minor in Korean culture while living in South Korea. I am writing to inquire about potential internship opportunities.

At present, I am actively seeking an overseas internship in the fields of Business Development, Supply Chain Management (procurement, product development, supply chain-related activities), or Human Resources (Onboarding, recruitment, or HR-related activities). The main learning goal is to engage in specific projects, tasks, and activities in an international environment over a period of 5-6 months (equivalent to 800 hours).

My interest in pursuing an international career stems from my belief that I possess the right combination of intercultural communication skills and relevant experience working on international business-related projects in collaboration with multinational teams. Throughout my studies, I developed an in-depth understanding of various areas of international business through projects and research in collaboration with international peers. In addition to this, I have completed training in the use of Microsoft Office 365 and statistical tools such as SPSS. Furthermore, I have completed a series of language courses in the language of Chinese and Korean.

The prospect of working in Thailand thrills me, and an opportunity to provide further information regarding my qualifications and expertise would be greatly appreciated. I am confident this would be an excellent opportunity for me to grow personally and professionally.

Thank you for your time and consideration, and I look forward to hearing from you.

Yours sincerely,

Anne Jan Pruim
